A350-1000 Japan Airlines -Seats-

First Class

World's highest quality First Class

Upon closing your door, the large and fully private space will feel like you have entered a luxury hotel room. The large, adjustable sofa converts into your choice of a single or double-size bed. Built-in headrest speakers fill the space with clear, high-quality sound as if you are seated at a live concert.

Business Class

A new experience coupled with delightful surprises

For the first time, JAL is introducing fully private rooms in our business class cabin. An exclusive personal space awaits behind each door that includes built-in headrest speakers and a large 24-inch monitor for a completely new cabin experience in the sky. Additionally, custom features from a private wardrobe and easy-access storage for luggage, to wireless charging ensure that you have a luxurious and carefree journey.

Premium Economy Class

Further elevating the premium economy class experience

The new seat design includes larger partitions to ensure added privacy and the special FIXBACK seat provides an easy, stress-free recline without worry about what is behind. Leg rest also automatically raise to a horizontal level allowing you to stay comfortable even on long journeys. In addition to the elevated private space, the new 4K monitor, which is 1.3 times larger than previous models, will make it easy to immerse yourself in your favorite inflight movie.

Economy Class

World's highest quality economy class

All-new seating offers generous space and comfort. The unique design includes an adjustable recline that is preset at an angle to provide you with a comfortable experience from the moment you take your seat. When it comes to entertainment, the 13-inch 4K monitor is the largest ever offered in our Economy Class and features Bluetooth connectivity allowing you to enjoy the richness of the onscreen images together with quality sound through your own audio device for an even more immersive experience.

Meal

**Customize your time on board.
Expansion of inflight meal
options.**

You can now customize the timing of your inflight course meal service based on your lounge visit before departure and the flight's arrival time. In addition, customers can pre-order before departure from a new healthy and sustainable vegan and vegetarian menu. (Image: First Class and Business Class)

Entertainment

A freer, more personalized inflight experience

A new inflight entertainment system allows you to customize your experience prior to departure. And, the seat monitor display will indicate the times for meal services and lights-out so you can plan ahead. Additionally, it is possible to communicate with a cabin attendant through the digital seat monitor for a superior and innovative inflight experience.
